

# Uganda Challenge

In a team, research either; the Equator, Lake Victoria, The Great Rift Valley or The River Nile.

With your team choose how to present your findings to others. You could design a poster, make a Powerpoint presentation, or give an illustrated talk.

## National Curriculum Programme of Study

**KS2 Geography- Ge2/1.1 Locational Knowledge**

Locate the world's countries, using maps to focus on Europe (including the location of Russia) and North and South America, concentrating on their environmental regions, key physical and human characteristics, countries, and major cities

Identify the position and significance of latitude, longitude, Equator, Northern Hemisphere, Southern Hemisphere, the Tropics of Cancer and Capricorn, Arctic and Antarctic Circle, the Prime/Greenwich Meridian and time zones (including day and night)

## Useful Resources

Web sites, books, video clips, photographs of the research topics.

Further research ideas; What is special about Entebbe in terms of its world map location?

What can you discover about the equatorial regions of the world?

What are the influences upon the climate and weather patterns of Uganda?

If you were to travel to Uganda which is positioned on the Equator, what would you need to pack in your suitcase? Consider health precautions as well as clothing requirements.
